

Subject: Media Consent Request – Fredluc After-School Program

Dear Parents/Guardians,

In April of last year, the Fredluc After-School Program was launched to support and empower Black youth by addressing systemic gaps that can impact identity, confidence, and leadership opportunities.

While Black Canadians continue to make significant contributions to society, representation in areas such as government, public service, and executive leadership remains limited. Fredluc was created as a non-profit initiative dedicated to helping young people build confidence, develop leadership skills, and strengthen their sense of cultural identity.

Through mentorship and structured learning opportunities, we aim to prepare youth to actively participate in shaping Canada's future.

Our Program Focus Areas

Our curriculum includes programs designed to support the holistic development of young people:

African Language & Cultural Learning

Helping students connect with African heritage, language, and culture.

Leadership & Governance Training

Exposure to leadership development opportunities including youth leadership programs and global platforms such as the UN Youth Assembly.

Identity & Self-Esteem Workshops

Sessions that build confidence, self-awareness, and personal growth.

Character & Moral Development

Teaching values that promote integrity, responsibility, and community engagement.

Media Consent Request

As part of our efforts to expand the program and update our website and outreach materials, we would like permission to capture photos and short video clips during program activities that may include your child.

These materials may be used for:

- Program promotion
- Community engagement
- Showcasing the positive impact of the Fredluc After-School Program

Participation will always remain voluntary and will only occur with both parental consent and the child's willingness to participate.

Next Steps

We will soon be opening registration for the next program intake. To better support busy family schedules, we are also developing a more flexible program structure that accommodates both students and parents.

If you consent to your child appearing in program photos or videos, or if you have any questions, please contact us:

Phone: 587 528 5079

Email: admin@fredluc.com

We appreciate your continued support and look forward to welcoming more families into the Fredluc community.

Warm regards,

Sandra Gabriel-Omesah

Coordinator

Fredluc After-School Program
